 Coimbatore

CAREER OBJECTIVE

Aspiring Python Full Stack Developer with hands-on training in Python, HTML, CSS, JavaScript, and Django. Focused on building efficient, user-friendly web applications and contributing to collaborative projects. Driven by continuous learning and a passion for solving real-world problems through technology.

EDUCATION

B.E Electronics and Communication Engineering,
Sri Ramakrishna Engineering College
7.04CGPA

2021 – 2025
Coimbatore

PROJECTS

Online Medicine Ordering System.

07/2025

- A responsive e-commerce website built using HTML5, CSS3, JavaScript, and Django for seamless online medicine ordering.
- Includes product listings, interactive UI, and smooth navigation with full-stack functionality for an enhanced user experience.

Milk Quality Analysis System

04/2024

- Developed a smart milk analysis system using sensors to detect protein, fat, pH, and adulteration levels.
- Data is transmitted in real-time via ThingSpeak, ensuring quality and transparency for rural dairy proprietors.

Early Detection of Algae Bloom using IOT

03/2022

- Designed an IoT-based system to detect excess algae growth in lakes using sensors, preventing aquatic life damage and eutrophication.
- Algae levels are monitored and controlled using a submerged motor, with potential use in aquariums as well.
